

**January 15, 2021 WEEKLY
Update Regarding COVID-19**

Dear Residents and Families,

The COVID-19 Vaccine through the CVS LTC Pharmacy Partnership has been on the 1st Floor of Eastside Terrace over the last 3 days. *What a wonderful turn out!!!* It has been great to see all of our residents and the majority of our staff receiving the vaccine. By the end of today, CVS will have administered almost 1,100 COVID-19 vaccinations. For the Care Center, ET Rehab, and Assisted Living residents, CVS was able to go door to door and administer their vaccinations. To accomplish all of these feats, it has taken an “all hands on deck” approach from the Lakeview staff. We greatly appreciate all of their hard work and long hours. For any resident or staff who missed out the COVID-19 vaccine, there will be a second round of clinics February 3rd, 4th, and 5th, so please stop by the Command Center and fill out a consent form.

As a five-star retirement community, our top priority has always been the health and safety of our residents, families, visitors and staff. Lakeview is following guidance from multiple governmental agencies including the United States Centers for Disease Control (CDC), the United States Centers for Medicare and Medicaid Services (CMS), the Kansas Department of Health and Environment (KDHE), the Kansas Department of Aging and Disability Services (KDADS) and the Johnson County Department of Health and Environment (JCDHE).

Per CMS regulatory guidance, our activity since last Friday is reflected in the following tables:

COVID-19 (weekly change)

We have not had any additional positive COVID-19 results in Independent Living over the last week and our 1 remaining IL resident has recovered from the 3rd Floor COVID-19 unit. **If you are feeling sick or have been recently notified of an exposure to COVID-19, please reach out to Steffany Brosa at (913) 744-2451.**

In the licensed areas, we did have **2 new resident cases in Care Center 1st Floor this week that appear to be related to the new case last week.** Immediately upon receiving the test results these residents were moved to the 3rd Floor COVID unit. During the current outbreak, we have had **71** licensed area residents test positive for COVID-19 broken out as follows: **32** 1st Floor Care Center, **34** 2nd Floor Care Center, **2** ET Rehab, and **3** Assisted Living. Currently, **3** of these residents are being treated in our COVID unit on the 3rd floor of Eastside Terrace, **no** residents are hospitalized, **48** residents have recovered and unfortunately **21** have passed away **including a Care Center resident who had returned to the Care Center but never fully recovered from COVID-19.** Our sympathies and prayers go out to the families and friends of all of those we have lost. The last positive resident

case in each licensed area is as follows: 1st floor of the Care Center **January 15th**, 2nd floor of the Care Center December 12th, Eastside Terrace 2nd Floor Rehab December 27th, and Assisted Living December 6th. We will continue to test Assisted Living, Care Center and ET 2nd floor residents every couple of days and our licensed area staff twice a week. Finding the positive cases quickly gives us the best fighting chance to minimize the spread of COVID-19.

On the employee front, Lakeview has conducted **479** tests in the past week, yielding **4** positive COVID-19 result in employees. Our second round employee testing results are still outstanding at the time of this letter. During the current outbreak that started back on September 27th, we have had **78** staff test positive for COVID-19. Currently we have a total of **10** staff off due to positive test results.

Most of our IL residents did receive the 1st round of the COVID-19 vaccine but it will take several weeks before it begins to be effective. Therefore, Lakeview's reopening plan will continue at a slow and cautious pace.
